BuzziPleat LED

BuzziPleat LED - Sculptural pendant enfolds silence and light

BuzziPleat, a dynamic series of acoustic solutions by 13&9, delivers sound control with architectural edge. Traditional fashion design techniques, like smocking and pleating, are reinterpreted with sound-absorbing BuzziFelt to create large architectural folds, which maximize surface to deliver exceptional acoustic performance. The large-scale, yet lightweight sculptural forms can be suspended from the ceiling or applied as wall-hanging. The suspended BuzziPleat LED configuration marries sound control and illumination. It is equipped with BuzziSol, a powerful LED light source. The dimmable warm light gives BuzziPleat an even greater sense of depth.

As from June 2018, all new lighting products will be UL listed.
